

FOOD SAFETY AND HEALTH HAZARD RECOGNITION WORKSHOP FOR ASEAN COUNTRIES

AUGUST 10 TO AUGUST 17, 2014 AT MEIHO UNIVERSITY, TAIWAN

Invitation Letter

May 28, 2014

To Distinguished Guest from ASEAN Countries:

From the support of Ministry of Science and Technology, we take great pleasure in inviting you to attend the Food Safety and Health Hazard Recognition Workshop for ASEAN Countries to be held from August 10 to August 17, 2014 at Meiho University, Taiwan.

The funding agency Ministry of Science and Technology offers travel aid, financial support for accommodation and transportation to each workshop attendee. The financial subsidies for workshop are limited to 30 persons. Meiho University reserves the right for those eligible for the allowance.

We are looking forward to your attendance and participation. **Please inform us your decision of participation before June 20.** For the detail of workshop information and registration, please check the workshop website at <http://203.71.232.66/2014ASEAN/>

Sincerely,

Ching-Chuan Chen

Workshop Director,
Meiho University, Taiwan

FOOD SAFETY AND HEALTH HAZARD RECOGNITION WORKSHOP FOR ASEAN COUNTRIES

AUGUST 10 TO AUGUST 17, 2014 AT MEIHO UNIVERSITY, TAIWAN

Workshop Information

The Agriculture and Aquaculture Analytical Service Center of Meiho University at Taiwan was a comprehensive laboratory for food safety testing and nutrition science. Equipped with modern and high-end analytical instruments such as GC-MS/MS, LC-MS/MS and ICP-MS, the service center provides analytical solutions for government, industry and local university. The analytical solutions provided by the service center include pesticide analysis, food additive analysis, heavy metal analysis, mycotoxin analysis, veterinary drug residue analysis and marine toxin analysis. Through the years, the Agriculture and Aquaculture Analytical Service Center of Meiho University has accumulated many experiences on the use of LC-MS/MS to service local government, industry and university for food safety purposes. In recent years, we have developed validated LC-MS/MS methods for marine shellfish toxins and vitamins. Marine shellfish toxins are emerging food safety problems, the EU and Canada are applying the LC-MS/MS as official methods for marine shellfish toxin detection. Vitamins are important bio-molecules for health promotion, many western countries are already employing LC-MS/MS for nutrition status surveys of vitamins.

With the support of the Ministry of Science and Technology, Taiwan, we look forward to welcoming you to the Food Safety and Health Hazard Recognition Workshop for ASEAN Countries to be held at Meiho University, Pingtung, Taiwan on August 10-17. We aim to put together an exciting workshop covering food safety and nutrition analysis. The workshop will bring together both the theory and hands-on training of the state-of-the-art food safety analysis in the following topics: (1) analysis of maleic acid in starch foods, (2) analysis of edible oil adulteration, (3) analysis of phthalate contamination in foods, (4) analysis of heavy metal in spices, (5) analysis of minerals and vitamins in foods. The program schedule will be as follows.

FOOD SAFETY AND HEALTH HAZARD RECOGNITION WORKSHOP FOR ASEAN COUNTRIES

AUGUST 10 TO AUGUST 17, 2014 AT MEIHO UNIVERSITY, TAIWAN

Date	Schedule
Aug.10	Arrival
Aug.11	Welcome Party / Analysis of maleic acid in starch foods
Aug.12	Analysis of edible oil adulteration
Aug.13	Analysis of phthalate contamination in foods
Aug.14	Analysis of heavy metal in spice
Aug.15	Analysis of mineral and vitamin in foods
Aug.16	Culture tour
Aug.17	Departure
